Glove Sizing Guide

Sizing Gloves: Ideally, the proper glove size is determined by trying on several different sizes to find the glove that best fits your hand. Your local FireCraft® dealer should be able to assist you in sizing your gloves. The next best alternative is to use the hand measurement table or sizing chart below.

Option #1: Hand Measurement

Using a string or measuring tape, measure the circumference around the knuckles, excluding the thumb. Your hand should be open with the fingers together. Compare this measurement to the chart below to determine your glove size.

<table>
<thead>
<tr>
<th></th>
<th>XXS</th>
<th>XS</th>
<th>S</th>
<th>M</th>
<th>L</th>
<th>XL</th>
<th>2XL</th>
<th>3XL</th>
</tr>
</thead>
<tbody>
<tr>
<td>Size</td>
<td>5.2&quot;-6.5&quot;</td>
<td>6.5&quot;-7.3&quot;</td>
<td>7.3&quot;-8&quot;</td>
<td>8&quot;-8.6&quot;</td>
<td>8.6&quot;-9.5&quot;</td>
<td>9.5&quot;-10.5&quot;</td>
<td>10.5&quot;-11.5&quot;</td>
<td>11.5&quot;-12.5&quot;</td>
</tr>
</tbody>
</table>

Option #2: Sizing Chart

Place your right hand on the glove chart so that the saddle of your thumb and index finger line up with the X. The measurement closest to the right edge of your hand will be the appropriate glove size.
