

Wear, Wash, Dry. Repeat.

The Flame™ glove from FireCraft Safety is designed to be washed and dried along with your turnout gear. Because frequent washing of your gear is becoming common, you need a glove that can withstand the same cleaning treatment. The Flame™ glove will not shrink, stretch or become stiff after repeated wash/dry cycles.

- Made of Kevlar®, Nomex® and Porelle® FR moisture barrier.
- Excellent dexterity.
- Available in sizes XXS to 4XL with or without Kevlar® cuff.
- Meets NFPA 1971, 2018 Edition, FED-OSHA 1910.156(e)(4), Cal/OSHA Title 8 Section 3407.
