# The Phoenix Glove

## SPECIFICATIONS

**Certified by SEI to meet the NFPA 1971-2018 Edition standard for structural firefighting gloves**

### Construction:

- This five-fingered glove is constructed using a modified gunn-cut pattern with a straight thumb, resulting in wide thumb rotation and minimum seam stress at the base.
- Outer shell: Back of hand- cow grain leather, treated to resist moisture and flame and to stay soft after repeated wet/dry cycles. Palm side- suede cow leather (reverse side of grain leather)
- Moisture barrier: Porelle® FR moisture barriers
  - breathable, durable protection against water, chemicals and blood-borne pathogens
  - PFAS-free
  - Independently certified by SEI to meet 2018 NFPA® standards
  - Taped and stitched to the glove shell to prevent inversion
- All seams are lock-stitched, with 10 stitches per inch, using DuPont™ Kevlar® 30/3 spin yarn aramid thread for greater strength against heat and cut.
- Elastic snugger band is used on BOTH palm and back of glove to provide more secure fit, utilizing zigzag stitching for greater stretch capability.
- Sizing allows the tips of user's fingers to extend to end of the glove for enhanced dexterity and safety.
- Each pair of gloves is individually poly-bagged, along with maintenance and inspection instructions.

### Fit:

- Gloves are offered in sizes XXS (64N) through 4XL (94N)
- Two finger-length options are available: Standard and Cadet (½-inch shorter)
- Two width options are available: Standard and Slimline
